Increase of Crime.

We see it stated in the public prints, that there are four or five murder cases to be tried in the Court of Sessions in the city of New York, at the November sitting of that Court, which commences during the present week. The Oyer and Terminer has also, no doubt sundry cases of killing on its calendar, as usual; while by far the larger number of murderers in that metropolis, whether with or without the connivance of the authorities, are still at large, and ready for a repetition of their crimes the first opportunity.

It is painful and humiliating to observe the shocking increase of crime in our great cities, and in fact throughout the country, of late years. The writer of this article well remembers the day when murders were so infrequent in our land, that an account of one published in a newspaper was almost as rare and exciting as the appearance of a travelling caravan or a circus, in a country village. Now, we have intelligence of two, three, or a half a dozen murders, in almost every paper. The inviolability of human life has come to be regarded as of small account, and the land reeks with blood.

Nor is there less increase apparent in the circle of smaller crimes, including those committed against persons, property, character, and the semi-suicidal class which directly damage or destroy the criminal himself as well as others. Indeed, when philosophically viewed, there seems no room for doubt that such is the tendency of all crimes whatsoever—that the great Author of all things has, in his divine wisdom, linked sin and suffering together. Highway and house robbery, intemperance, arson, forgery, assault and battery, theft,—how do the police records and the columns of the daily and weekly press team with the sickening and ever-recurring details! That these numerous and gross offences against morality and the laws grow largely out of the use of intoxicating beverages, no sane man can reasonably doubt—and the extensive pauperism, extra taxation, and wide-spread suffering of innocent wives and children, spring largely from the same prolific source of evil. But there are other causes, which, though they may be less fruitful of mischief, are not less certain and painful within the sphere of their influence; and we cannot but commend this whole subject to the attention of serious and thoughtful minds, whether in the school-room, the pulpit, the legislature, or elsewhere.

A BOTTLE STORY.—THE COLLINS STEAMER PACIFIC.—It will be remembered that the Collins steamer Pacific left Liverpool for New York a year and a half since, with a large number of passengers, and was never afterwards heard from. The Paris *Moniteur*, the official paper of the French Government, makes the following statement:

"The maritime prefect of Brest has transmitted to the Minister Secretary of State for Navy and the Colonies, a note written with a pencil in English, and which was enclosed in a glass bottle found on the 14th of September, 1857, on the strand of Melon, in the syndicate of Pornpore (Department of Finistère.) Great interest is attached to this note, which appears to have been written by a passenger on board the American steamer Pacific, supposed to be wholly lost, with all hands, in 1856, and we think it therefore our duty to publish its contents verbatim:

"Steamship Pacific, Eldridge, command; Smith passenger. Steamship Pacific run between two ice bergs. All hands lost. On the 1st of April, 1856. Just before going down, 2 P.M."

The word April is written over a word effaced, for the author of the note had first commenced with a capital M, as if about to write March.—*Boston Traveller.*

Exodus of the Mormons of Carson Valley.—The Immigration.

We copy the following telegraphic despatch from the Sacramento *State Journal*. It is dated Genoa, September 17. It will be seen by it that the rumor of the exodus of the Mormons from Carson valley, by order of Brigham Young, is confirmed. "The settlers in that valley will have a happy ridance of them. The despatch also conveys the gratifying intelligence that the immigration of the present year will fully reach 25,000, and probably 30,000, two thirds of whom are women and children. This will make a great addition to our population. Next year we may expect 50,000, at least."

"The Mormons are all making preparations to leave for the Great Salt Lake; they will leave here in about ten days, and will have in their train over one hundred wagons. Their farms have been purchased by immigrants coming over the plains this season. The immigration this year is immense.—The Valley is all alive with men, women, children and animals, who have just arrived over the plains. The immigration this year will reach full 25,000, and probably 30,000. Two-thirds are women and children."

MARTIAL LAW.—The New York *Courier & Enquirer* says the statement by telegraph that Baltimore has been put "under martial law," is a gross misapplication of terms. There has been no instance of martial law in England for the last hundred and fifty years, and none in this country since the revolutionary war but that declared by General Jackson at New Orleans. It is believed that the constitution of every State in the Union contains a clause that the military shall at all times be in strict subordination to the civil power. Such a clause is inoperative, if the military can and do usurp the power of the civil power—and this has been done, and only this, by Gov. Ligon in Baltimore.

LOCAL NEWS.

Once more we feel inclined to appeal to our citizens, who wish to look upon the bright side of things in these dreary times, to go forthwith and buy tickets for the AQUINEX COURSE OF LECTURES, the introductory one of which will be delivered this evening by the Rt. REV. THOMAS M. CLARK, Bishop of the Diocese of Rhode Island. That the bishop will have a full house this evening we are confident, for his fame as a public lecturer is widely spread in our community, besides which he is very much beloved and his talents are highly appreciated.

We have little local matter of interest to put before our readers to-day. The Fakar of Ava has created some fun in our midst during his brief stay, and the pleasant moon-light evenings have been conducive to the enjoyments of the young folks of both sexes. Music reaches our ears from all quarters of the city during these pleasant evenings and all seem to make the best of the "hard times," save now and then some disconsolate individual who has been more unfortunate than the rest.

Fulton applied steam to the great practical uses of the age; Morse has brought Galvanism to be the daily servant of millions of men. Newton unravelled the mazes of the stars, and made their motions the mariner's guide on the trackless ocean.—What these men have done in their departments, Dr. Ayer does in medicine. He turns the great discoveries in Science and Physics to use in the cure of disease, and makes the occult discoveries of the great chemists available for the wants of every day life. His medicines for the low prices at which they are sold, bring within the reach of every man the best wisdom and the best skill of modern times.—*Winnington, Del. "Statesman."*

Our readers will no doubt remember the story of how a Frenchman, who fell into the hands of bloody savages, was saved from the chopping knife, through the aid of the wig, and the other circumstances of the case.

A mass of our readers have been reminded of the article in the paper of the 2nd inst. in relation to the use of Chamberlain's Xylophorum in restoring lost hair, and find it cheaper than wearing wigs.

GENERAL NEWS.

Correspondence of the Daily News.

New York, Nov. 3, 1857.

Mr. Editor.—This is the "Tuesday succeeding the first Monday in November," as our brilliant lawgivers, in the profundity of their wisdom, saw fit to designate the day of our annual State Election. In plainer English, it is Election Day, to-day, in York State, and the "sovereign people" are busily engaged in the choice of State, County and Judicial officers, together with members of both branches of the Legislature. There is no Governor nor Lt. Governor to be elected, the terms of those officers (chosen last year) being for two years each. To suppose that anything like the aggregate vote of last year will be cast, would be the sheerest folly—for "after a storm there comes a calm," and there is always a large falling off in the popular vote after a Presidential contest.

In this city, indeed throughout the State, about all the noise relative to the now pending struggle has been made by the Slavery Democracy. They have held a good many meetings, burnt some powder, imbibed considerable bad liquor, and hurraed for a good many fluent but often absurd and untruthful speeches by their orators and oracles. The Republicans have sat and done very little in the line of rallying and spouting; and hence comes an impression in some quarters, that they are going to let the election go by default, and give the Sham Democracy an easy and complete victory in the State. I shall, perhaps, be impelled to believe this hereafter—but not to-day. If the Republicans of the Empire State, with a last year's majority for Fremont of eighty thousand over Buchanan, and for Governor King of sixty-five thousand over his Buchanan opponent, and a joint majority of over sixty in the Legislature,—I say, if they now permit the State to fall back into the arms of the Slavery Democracy, they will have forfeited the confidence of their brethren throughout the whole country.

Under the new and improved arrangements made for the occasion by the Police department, the election in the city, so far as I am able to learn, up to 12 o'clock, is proceeding with unwonted quietness and good order. There is a considerable attendance at many of the polling places, but an almost entire absence of all excitement. The election of Charter officers, which has been to some extent confounded with the State contest, does not take place to-day, but on the first Tuesday of December.

The weekly Bank statement, (City Banks) published this morning, exhibits a slight contraction of loans and discounts, but a large increase of specie,—being nearly Two and a Half Millions of Dollars over the aggregate amount reported last week. Notwithstanding the cautious movement of the Banks, and the continued depression observable at the Stock-board, money is growing plentier and business more active. Whether Mayor Wood's flour and potato proposition is carried out or not, it is pretty certain that some generous provision will be made by the corporation for the prosecution of the public works of the city, so that employ will be given to multitudes who would otherwise come to want ere long. But it is not likely that any measures of relief will be particularly expeditiously by the assemblage of Dutch and Irish vagabonds in the Park, as was the case yesterday, threatening an indiscriminate massacre of citizens, if something were not speedily done for their relief. These ruffians need to be watched closely, that they will rob, and murder, and spend the avails of their plunder in liquor, there can be no question. They are getting pretty bold to proclaim their fiendish purposes from the steps of the City Hall. The police should keep a sharp eye upon such wretches.

In the City Court of Brooklyn, the Grand Jury have made a presentment of the 1,500 groghshops of that corporation, of which they say that they have not been able to find, that so many as 200 have any license at all—but the whole number are engaged in selling constantly, the same as though they were regularly authorized. Of thirty-one females who are in prison, the jury say three-quarters of them are Irish, and five-sixths of the number are imprisoned for drunkenness!—many of them wives and mothers, leaving little children at home!

From the 8th of August, to the 17th ult.—being just ten weeks—the contraction of loans by our City Banks reached the enormous aggregate, within a fraction, of Twenty-five Millions of Dollars. Who need wonder after this, that merchants and manufacturers suspended and broke down? or that the Banks themselves should have smarted by the reaction?

City mortality last week, 491—being a decrease of 26.

RANDLER.

A handsome and durable building material—"artificial granite"—is now made of a composition of sand and lime. Thorough chemical tests have proven its indestructibility. It is moulded in blocks of five times the size of common brick, and in convenient shape for building. Each block has a surface through it, so as to pass a current of air through the centre of the block in wall of the building, and thus prevent heat from entering.

Why is a brickman like a clergy? Because it is rapid in its growth, slim in its trunk, and thick in its head.

Profound ignorance makes a man dogmatic. He who knows nothing, thinks he can teach others what he just now has learned himself; whilst he who knows a great deal, can scarce imagine any one not to be acquainted with what he says, and speaks for this reason with more indifference.

SPECIAL NOTICES.

ALPINE HAIR BALM

Restoring Grey Hair to its original Color. Dr. Warranted to cure Baldness, Scurf, Dandruff, itching and all diseases of the skin. This Balm gives the scalp a new and healthy action; restores the coloring matter to the root of the Hair, which passes through the Hair and gives a natural color without the use of Hair Dye. It keeps the hair from falling off.

Mr. Mason, Sir.—I have found a Hair Restorative in your Alpine Hair Balm, which has not merely changed the gray locks for their original, but has given them a glossy hue, which before they never had.

JEREMIAH S. ROSS, 129 Wickenden street, Providence, May 20, 1857.

Providence, May 20, 1857.

C. A. P. Mason, Dear Sir.—I am now using the Alpine Hair Balm, which I had of you, with most happy results. On the 30th of June last, my hair (which had been gray for more than six years) was fast falling off; but on the third application of the Balm it ceased falling, and is now firmly rooted, and very nearly its original color. By the use of one bottle, I have gained a complete permanent, brilliant and original head of hair. If every gray haired sceptic would try it, they would soon become "living epistles, known and read of all men," as having used the Alpine Hair Balm. Yours, &c.

JOHN F. TRESSCOTT, 227 Westminster street, Providence.

TESTIMONY OF A LADY OVER 50 YEARS OF AGE.

Mr. Mason, Sir.—I write to inform you how pleased I am with your Alpine Hair Balm. My hair has been gray for a number of years, and I have been obliged to wear a front piece and cap; but have always found a difficulty when having a bonnet on to keep the front piece from working back and showing the white hair. Finally I concluded I would try your Alpine Hair Balm; I used one bottle only and my hair has come back to its natural color, which was brown. My hair is now perfectly free from dandruff and is soft and glossy.

Yours respectfully, SARAH LYON.

READ! READ! READ!—"Ye afflicted read!" the following Certificate of cure of over 20 years' standing:

H. T. KELSO.—Dear Sir.—I have been troubled with an affection of the Bladder and Kidneys for over twenty years. I have tried physicians in vain, and at last concluded to give your genuine preparation a trial, as I had heard it highly spoken of. It afforded me immediate relief. I have used three bottles, and I have obtained more relief from its effects and feel much better than I have for twenty years. I have the greatest faith in its virtues and curative powers, and shall do all in my power to make it known to the afflicted. Hoping this may prove advantageous to you in assisting you to introduce the medicine. I am truly yours, H. T. KELSO.

Leviestown, Pa., Jan. 28, 1857.

Should any doubt Mr. Kelso's statement, please refer to the following gentlemen:

Hon. Wm. Bigler, ex-Governor, Pennsylvania.

Hon. Thos. B. Florence, Philadelphia.

Hon. J. C. Knox, Judge, Toga Co., Pa.

Hon. J. S. Black, Judge, Philadelphia.

Hon. D. R. Porter, ex-Governor, Pennsylvania.

Hon. Ellis Lewis, Judge, Philadelphia.

Hon. R. C. Grier, Judge, U. S. Court.

Hon. G. W. Woodward, Judge, Philadelphia.

Hon. W. A. Porter, City Solicitor, Philadelphia.

Hon. John Bigler, ex-Governor, California.

Hon. E. Banks, Auditor General, Washington, D. C.

And many others, if necessary.

SOMETHING NEW EVERY WEEK. Testimony in favor of Prof. O. J. WOOD'S Hair Restorative Voluntary Certificates, of which one will be published every week.

No. 12.

CARLYLE, N. H., June 27th, 1855.

I have used Prof. O. J. Wood's Hair Restorative, and have achieved its wonderful effect. My hair was becoming as I thought, prematurely grey, but by the use of his Restorative it has resumed its original color, and I have no doubt permanently so.

USE THE AMERICAN VEGETABLE

HAIR CURLING COMPOUND.

For Curling and Beautifying the Hair and Whiskers.

All who wish to improve the health and growth of the Hair and Whiskers, should not be without this compound. It has been fully tested to be the best article now in use. It gives a black and glossy appearance, and after the first application, will curl the hair in beautiful ringlets.

For gentlemen's Whiskers, nothing can be better for curling and making them thick and glossy. As this article is purely vegetable, it will not injure the hair, but will remove the unmanly dryness and harshness of the hair, which, recedes its loss, and will increase its growth and give it a healthy and luxuriant brilliancy.

Many are the testimonies in its favor, and must be tried to be appreciated. These wishing a beautiful head of hair, can have it by using this Curling Compound, which is put up in a nice box, richly labeled on four sides.—Price \$1.

For the Skin and Complexion, see Dr. Le BARON'S Lily Cream. This article is composed of the most soothing substances known in the Vegetable Kingdom, and as it contains no poisonous or injurious materials, it can be used at all times and with entire safety, even upon the most delicate skin. Price only 25 cents and 50 cents per bottle.

For sale that you get the Lily Cream.

HEALTHY BREAD.

JAMES PYLE'S

DIETETIC SALERATUS

It is among the most important improvements of the present day. Every family throughout this land should be acquainted with its intrinsic value, and thereby escape the many evils arising from the use of common Saleratus—the caustic impurities of which are acknowledged destructive to health, by physicians generally. Common saleratus has the elements of caustic alkali, and readily acts on the coating of the stomach, thus deranging the digestive organs and paving the way of Dyspepsia and diseases of every kind. Children are the greatest sufferers and frequently die from infantile dyspepsia, which, in some cases, were successfully treated, even without medical aid. But here is an article to be relied on.

James Pyle's Dietetic Saleratus, the result of many experiments, is entirely different from everything heretofore in use.—The perfection reached in purifying it, makes it as harmless to the stomach as flour itself, while in point of nicety it surpasses the best baking soda, and will make bread, biscuit and cake, beautifully light, nutritious, and suitable for the most delicate stomach. Every lady that tries it will use no other.

BEWARE OF COUNTERFEITS.—Our great success has brought out a multitude of poisonous imitations. The genuine is packed in whole, half, and quarter packages, with the name of James Pyle on each. Manufacturing Depot, 313 Washington st., New York.

For sale at all the groceries in Newport, Providence and throughout the State.
